13:00 – 13:15 Close

Nice Words about Will

"Will is a fine orator, and creative and winning presenter, who can turn his hand to a wide range of improvement situations..."

Sally Williams, Headteacher, Stanground St. John's CofE Primary School, Peterborough

"Fantastic such a brilliant presentation!...'Inspiring and passionate!'...'Outstanding!'...'Inspirational and humorous!"

Superstars Headteacher Conference, March 18

"What a wonderful alternative to the stultifying predictabilities of WALT and WILF! These activities help bring mastery-oriented learning back in to a performance-oriented curriculum."

Professor Barry Hymer

The Art of Brilliance?

Embedding Transformational Mindsets in your School

March 17th 2020, 9:15-13:15
The Barn at Berkeley

Nestling on the edge of the Cotswolds, in the heart of Berkeley Vale, The Barn at Berkeley is a breath taking Cotswold stone venue, lovingly restored and full of distinctive charm and character.

Set in 185 acres of beautiful Gloucestershire countryside, The Barn at Berkeley is a privately run, family business. The land, originally part of the historic Berkeley Estate, has been in the Cullimore family for over 75 years.

March 25th 2020, 9:15-13:15
Hensol Castle

As you would expect with a 17th Century stately home, Hensol Castle has an abundance of history, that's just waiting to be discovered.

There's striking features at every turn, from turrets and gothic towers to sweeping staircases and original architecture, all of which are encased in the magnificent walls of this 400-year old castle. Set within an enchanting estate, which boasts 650 acres of rolling Welsh countryside, a 15 acre serpentine lake, the Grade I listed Hensol Castle provides an unrivalled setting.

About Will Hussey

Will is an award-winning best-selling author and key-note speaker, who specialises in making a difference. He encourages people to think, think again and think differently; there is another way...

Will has a degree in Physical and Adventure Education, which is pretty much how he thinks all education should be. Devoting more than 20 years to facilitating creative thinking, teaching and learning Will soon came to realise the importance of cultivating mindset alongside curriculum. He works with a wide variety of individuals, schools and organisations, both at home and abroad, helping them to believe in better.

Will specialises in transformational thinking for ages 5 to 105; often initiating small changes that make a big difference. His innovative Transformational Mindset programme is refreshingly different and has been received to rave reviews.

It's genuinely never too late to learn...

Will Hussey – Art of Brilliance – Embedding Transformational Mindsets

Learning is all in the mind. Which means that teaching and learning is an inside job; displays, resources - even the curriculum - are little more than background noise without the capacity to ingest and make sense of what's between the ears. Fathoming just how to craft the right messages, and make them stick, is key to transforming the classroom climate. In short; mindset matters.

Within his workshop Will talks about:

- 1 Action or Distraction?**
Life is busy; there's a whole load of competing demands for our time and attention, both in and out of the classroom. Of course, 'empty vessels make the most noise,' so the saying goes, and learning to think about the things worth thinking about is harder than it may first seem. 'Action or Distraction,' explores what really happens in the pursuit of progress, and what to do about it...
- 2 Purpose and Perspective**
90% of us believe we're above average. Ofsted isn't satisfied with satisfactory anymore. Estyn finds adequate somehow inadequate. In a world of mixed messages, it's easy to lose sight of what matters, and even harder to chart a course through such turbulent times. Or maybe not. Maybe there's a way of recalibrating our co-ordinates and seeking calmer waters.
- 3 The Boiler Cupboard**
- is not responsible for the climate in the classroom. Turning the heat up and down a notch is key to facilitating learning, but knowing just when, why and by how much is the trick. Installing a 'smart,' thermostat empowers teachers and pupils to readily respond to the daily learning environment.
- 4 That Loving Feeling**
Hopefully you've not lost it. Rekindling our zest, zip and zeal is perhaps the most valuable contribution we can make in ensuring a flourishing school community. A little personal development, and a dose of personal 'remembering,' helps us all get back to our personal best.

Will's workshop contains a blend of thought-provoking practical tasks and opportunities for reflection. With a mixture of familiar themes and original, alternative philosophies, the SuperStars annual conferences provide the perfect forum for first-time attendees and loyal returning heads alike.
